

The logo for Mitek Mezzanine Systems is centered in the upper half of the page. It features the word "Mitek" in a large, bold, white sans-serif font, with a registered trademark symbol (®) to its upper right. Below "Mitek" is the phrase "Mezzanine Systems" in a smaller, white sans-serif font. The background of the entire page is a complex geometric pattern of blue triangles in various shades (light blue, medium blue, and dark blue) and orientations, creating a dynamic, crystalline effect.

Mitek[®]

Mezzanine Systems

A dark blue rectangular box containing the word "Ancillaries" in white sans-serif font. A thin blue line originates from the bottom left corner of this box, extends horizontally to the left, and then turns vertically down to connect to the "UK & Europe" text block.

Ancillaries

A light gray rectangular box with a fine grid pattern, containing the text "UK & Europe" in a dark blue sans-serif font. A thin blue line originates from the bottom right corner of this box, extends horizontally to the right, and then turns vertically up to connect to the "Ancillaries" text block.

Ancillaries Overview

Introduction

MiTek Mezzanine Systems specialises in the design, manufacture and installation of innovative and future-proofed mezzanine solutions globally. Our custom-engineered structures fully integrate with all industrial, distribution and manufacturing environments – from the simplest to the most complex. With each project we supply a wide range of ancillaries in different finishes that will meet your specific needs. Our drive for innovation provides you with cutting-edge solutions and offers you access to the latest technologies.

Ancillaries

Means of access

Depending on the use of your mezzanine floor our engineers will advise you on the best staircase solution for your build to ensure safe access and exit.

Options available

- > Part K Utility (1000mm wide)
- > Part K General (1200mm wide)
- > Tower
- > Handrail options (see handrail for more information)

Finishes available

- > Powder coat, galvanised or aluminium handrails and stringers
- > Open or closed risers (depending on country specific regulations)
- > Mesh, or durbar treads

Staircases

Step overs provide a safe way to cross obstacles such as industrial machinery or pipes. Customers can choose from various configurations to suit their needs.

Options available

- > Companion way ladder (maintenance access only)
 - > Small structural floor with staircases
 - > Open mesh or Durbar treads

Finishes available

- > Painted
- > Powder coated in any RAL colour
- > Galvanised

Step Overs

Ancillaries

Means of access

Vertical Escape Ladder

Vertical Escape Ladders provide both a fire exit route and access for routine maintenance work where space is restricted.

Options available

- > Safety cage
- > Safety door
- > No entrance plate at the foot of the ladder

Finishes available

- > Powder coat in any RAL colour
- > Galvanised

Loading gates are a great solution to allow for a safe way to load and unload goods onto a raised platform such as mezzanine floors in warehouses and other environments.

Options available

- > Single pallet width
- > Double pallet width
- > Extra high pallet gate
 - > Loading plate

Finishes available

- > Powder coat in RAL 1021 & 1023 yellow

Loading Gate

Ancillaries Protection

Edge protection is required on any raised areas from which a person may fall. They come in many different variations and are typically installed on mezzanine floors, platforms, walkways and staircases.

Options available

- > Top or side mounted
- > Mesh, perspex or net infill panels
- > Different systems available C34, B34 or S32
(please see individual product sheets for spec information)

Finishes available

- > Powder coat in any RAL colour
- > Galvanised
- > Aluminium

Edge Protection

Protecting key mezzanine columns and beams will help maintain them, especially in warehouses where trolleys, forklifts and other vehicles may be in use. Column protectors can be installed and adjusted quickly.

Options available / most commonly used

- > Plastic
- > Steel
- > Soft wrap

Finishes available

- > Selection of highly visible colours
